Price \$799

## Volt Kit Rides

Ages 4-14

Buster

The 'SUV' amongst our rides! The driver sits high and dry, overlooking the streets. The dual-speed electric motor and the high quality disk brake make allow you to cruise around at your own pace. Got stuck? Just hit the reverse button, but be sure to look behind you ;-). Do you like its off road appearance as much as we do?

Ages 4-12

Go-Kart

This is Infento's take on a childhood classic. Passionate about racing? You will definitely love the sportive design of this ride. And the lithium-ion battery will ensure you can go for 45 minutes continuous runtime (!). When you need a break, the high quality disk brake will bring to a halt in no-time. There's always the reverse button. Are you the next Lewis Hamilton? 3, 2, 1, GO!

Ages 4-14

Quad

This ATV-like ride awakes the young explorer in you. The powerful dual-speed electric motor makes it easy to go through puddles and over road bumps with great ease. And when your expedition brings you to a dead end, there's always a reverse button next to your throttle ;-). Ready for you first expedition? Jump on your Quad!

Ages 5-12

Bender

This is a crowd's favourite! Bend to the left, bent to the right and... the Bender follows the lead! This unexpected steering system makes you will feel like a professional MotoGP motorcyclist, while giving the stability of two front wheels. Considering how fun it is, you will be grateful it only takes 2 hours to fully charge the battery. Lean in and start racing!

Ages 6-14

Minibike

Electric fun on two wheels. A real minibike for the biker-minded girls and boys among us. The brushless DC motor make for a great companion. This is reliable, efficient and longer lasting. Excited? It's time to zoom away full throttle!

Ages 8-14

Hot Rod

This is our tribute to an iconic American symbol: the Hot Rod. This lowrider beauty will definitely turn some heads as you go by. And it's not just looks! With 20 nm of torque at your fingertips, you'll also zoom away at a staggering 7mph (11km/h). Ready to claim your title as king of the road?

## Volt Kit Box

No. of Master Boxes

2

No. of Parts

823
